

## Environmental

B&N Glass & Aluminium manufactures and installs glass and aluminium doors, windows and frames for the residential and commercial sectors.

### Commitment

To meet our environmental obligations in accordance with Environmental Acts and Legislation and relevant legal and other requirements, including Local Government and contractual requirements and other requirements placed upon the organisation, or to which the organisation subscribes

- To comply with legislation protecting any site, place, structure or material of cultural heritage or habitat significance
- To comply with the international standard ISO 14001– Environmental Management Systems
- To establish and maintain objectives and targets with the aim of reducing negative environmental impacts and achieving continual improvement
- To have a positive environmental impact by embracing the use of sustainable resources and improved waste and energy reduction measures
- To prevent pollution and reduce the release of emissions from our workplace
- To ensure that environmental management principles are included in all planning activities
- To monitor, inspect, measure and report the effectiveness of our environmental program and objectives.

### Strategies and Objectives

- To minimise waste, use of hazardous substances, industrial noise and emissions, use of non-renewable resources, and to increase recycling
- To increase efficiencies for use of water and energy
- To understand and implement aspect identification and impact assessment practices, including emergency and rehabilitation measures
- To ensure incidents are promptly investigated and causes are corrected and prevented from reoccurring
- To provide information and training to our people in environmental issues awareness and work procedures
- To act with due regard for the requirements and expectations of our clients, neighbours and community, stakeholders, insurers, and industry associations
- To give preference to suppliers and subcontractors who are environmentally aware
- To more effectively gather feedback and information to improve our environmental performance
- To use local labour, materials and transport where available to reduce CO2 emissions and energy consumption, and to support the local community.

### Application of this Policy

This policy applies to all business operations and functions. We seek the co-operation of all workers, customers and interested parties. We encourage suggestions for realising our environmental objectives to minimise our impact on the environment.
